Certified Enrollment Counselor (CEC) Trainings

A CEC is an individual affiliated with a Certified Enrollment Entity (CEE).

**CEC trainings can only be attended by individuals who
have completed the CEC application process.**

**After training completion, and passing the exam CECs will be
certified in Medi-Cal & Covered California enrollment.**

**CAAs will not be able to assist in enrollment using the CalHEERS portal unless
they are certified CECs. Therefore, health centers that want to continue to
utilize their CAA staff for enrollment activities must assist their CAAs in
completing their CEC application and schedule them for a CEC training.**
