COUNTY OF SD DESCRIBES RR AS...

Recovery residences provide a sober and safe environment to facilitate recovery from substance use. While treatment services cannot be provided in a recovery residence, this type of short-term recovery housing allows for stability, and offers peer support to enhance clients' ability to maintain recovery while working towards skill building to achieve longer term housing solutions.

(Source: County of SD, HHSA, BHS - County of SD DMC-ODS Implementation Plan)

HOUSING NEEDS PER DMC-ODS

- 🏠 Recovery Residences serve individuals who are in need of a recovery oriented, supportive housing environment
- 🏠 Clients receiving financial support for recovery residence will be required to participate in the level of care (outpatient, intensive outpatient, case-management, and/or recovery support services)

(Source: County of SD, HHSA, BHS - County of SD DMC-ODS Implementation Plan)

WHO WE ARE

The RRA is program facilitated by Community Health Improvement Partners (CHIP). The mission of CHIP is advance long-term solutions to priority health needs through collaboration and community engagement.

The RRA is funded by the County of San Diego Health and Human Services Agency's Behavioral Health Services.

5

MISISON

To collaborate with the community, family members, and treatment providers to support and promote high quality recovery residences for individuals with substance use disorder and co-occurring.
