

CALIFORNIA COMMUNITY CLINICS AND HEALTH CENTERS

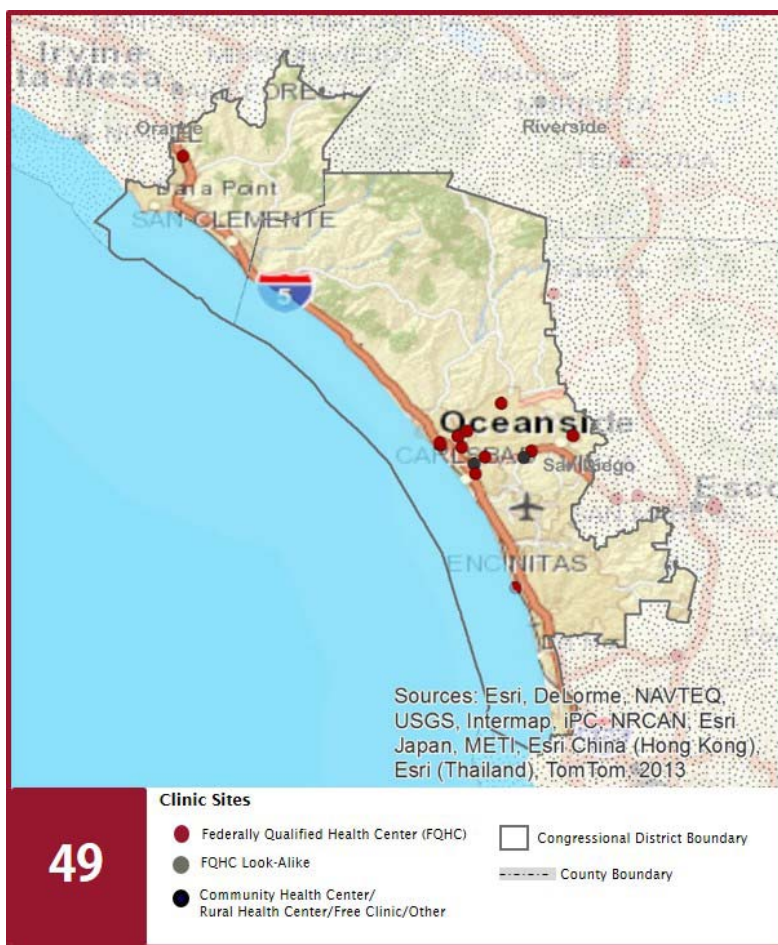

2017

Congressional District 49
Representative Darrell Issa

The Clinics

Community Clinics and Health Centers (CCHCs) are nonprofit health care practices located in low income and medically underserved areas. CCHCs share a common mission to serve everyone who walks through their doors, regardless of their ability to pay. The term CCHC include Federally Qualified Health Centers (FQHC), FQHC Look-Alikes, Migrant Health Centers, Rural and Frontier Health Centers, and Free Clinics. CCHCs are an essential segment of the safety net. In many California Counties, they provide a significant proportion of comprehensive primary care services to those who are publicly subsidized or uninsured.

Clinic Types

Total Number of CCHCs	16
Federally Qualified Health Center sites	14

^ ^ Patient counts for Episodic programs (BCCCP, CHDP, Family PACT) are duplicated. BCCCP = Breast and Cervical Cancer Control Program; CHDP = Child Health and Disability Prevention Program;
Family PACT = Family Planning Access Care and Treatment program.
^ ^ ^ County Indigent/CMSP/MISP, LA County Public/Private Partnership, and Other County Programs. ^ ^ ^ ^ Free and Self-Pay/ Sliding Fee Programs.

Because of their philosophy and by necessity, CCHCs have been vigilant about controlling the cost of care, and the untoward effects of deferred or neglected care, by promoting a broad range of preventive health services specifically targeted to the particular needs of their communities and patient populations. The federal Office of Management and Budget has found the Health Center Program to be one of the ten most effective federal programs and the most effective program under the federal Health and Human Services Agency. Despite enormous challenges, CCHCs have persisted in their mission to serve their local communities.
