

Title X Reporting

Converting Needs Into Solutions

Title X ... Problem Solved

The TSO has developed a reporting solution to save you time and money.

Features:

- Customizable Template
- Compatible with any Microsoft-based EPM/EHR system (NextGen, eCW, Allscripts, Medstreaming, etc.)
- Developed in partnership with California Family Health Council (CFHC)
- Up to 50 - 75% Savings!

“ Clinics need to know how easy the TSO team made our Title X report. They are responsive and helpful and I wish every project went this smoothly. Their relationship with CFHC bought us the time we needed to get this completed and was worth the investment! ”

Susan Dion, COO
Valley Community Clinic

User-friendly Interface

Including report settings that can be changed for further data analysis and “Mining”

TSC
Technical Services Organization
NextGen Title X Reporting Tool

Agency Name: [Text Agency]
Agency Code: [000]
Start Date: [7/1/2011]
End Date: [8/30/2011]

Run Report
Map New Values
View/Edit Mapped Values
View Current Data
View Title X Report
Export Title X Report
Audit Report

Refresh Tables [X]
Report Settings (Admin Only)

TSC
Technical Services Organization
NextGen Title X Report Administration

NOTE:
These settings should only be changed by an administrator that has verified the settings should indeed be changed. Please make a note of all settings prior to changing.
If the report no longer runs properly after changes are made, return to this screen and change them back to the original settings then contact the TSO at 619-542-4333 for support.

Calculate Age As Of: [01/01/2010]
Female Start Age: [1]
Female End Age: [100]
Male Start Age: [1]
Male End Age: [100]

Save Changes

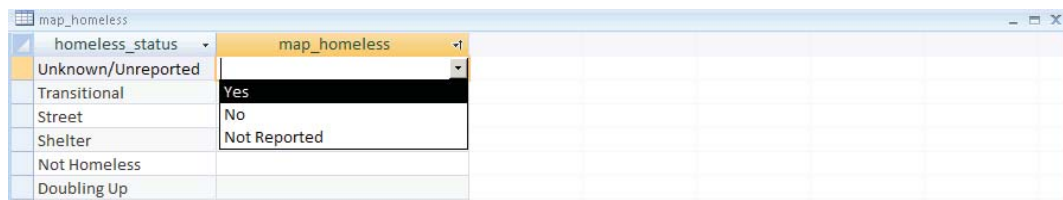

IMPORTANT: The information below should only be updated by a member of the TSO. Changing these settings may produce inaccurate data or no data at all.

NextGen Database Name: [ngprod_test]
SQL User: [sqltitlex]
SQL Password: [*****]
SQL Server Name/Instance: [APPDEV01\SQLXPRESS]
Title X Database Name: [titlex_data]

Intuitive Mapping Processes

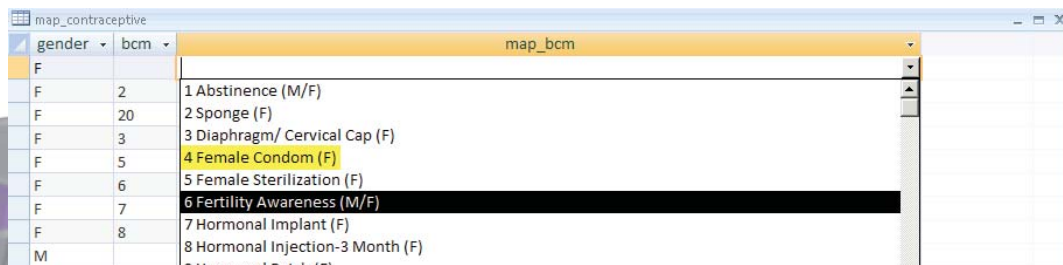

Map your data to acceptable values, no matter how or where you collect it in the application

Example 1

homeless_status	map_homeless
Unknown/Unreported	Yes
Transitional	No
Street	Not Reported
Shelter	
Not Homeless	
Doubling Up	

Example 2

gender	bcm	map_bcm
F		
F	2	1 Abstinence (M/F)
F	20	2 Sponge (F)
F	3	3 Diaphragm/ Cervical Cap (F)
F	5	4 Female Condom (F)
F	6	5 Female Sterilization (F)
F	7	6 Fertility Awareness (M/F)
F	8	7 Hormonal Implant (F)
F		8 Hormonal Injection-3 Month (F)
M		9 Hormonal Patch (F)
