

California Family Health Council and the Council of Community Clinics are Proud to Present

## Integrating Quality Sexual + Reproductive Health with Primary Care

An interactive one-day training for health care providers.

**Tuesday, November 12, 2013, 9:30 AM - 4:00 PM**

**Council of Community Clinics  
7535 Metropolitan Drive, San Diego**

This interactive training will share evidence-based clinical guidelines and operational best practices for integrating quality sexual and reproductive health services and primary care in diverse health settings. Participants will practice walking patients through a health care visit while seamlessly addressing each patient's unique sexual and reproductive health and primary care needs. Practical tools, tips and resources will be provided.

### Training Participants Will Learn How To:

- Integrate high quality sexual + reproductive health services and primary care.
- Understand and apply current evidence-based national guidelines related to sexual + reproductive health and primary care.
- Include sexual and reproductive health in routine medical histories and effectively assess a patient's sexual + reproductive health history and needs.
- Develop the skills needed to provide patient-centered contraceptive counseling.

### Who Should Attend:

This training is recommended for:

- Clinical Staff
- Health Center Administrators
- Health Educators

**Training Fee: \$175** includes new training companion manual and a light breakfast and lunch.
