## Health Quality Partners of Southern California Puts You on The Leading Edge of Healthcare!

**Health Quality Partners of Southern California (HQP)**, a subsidiary of **Health Center Partners of Southern California (HCP)**, (formerly Community Clinics Health Network a subsidiary of the Council of Community Clinics) supports community health centers and other safety-net partners in taking the best possible care of their patients by developing a broad portfolio of health quality outcomes, innovative, collaborative, efficient and effective access, and quality programs which rely on real-time data analytics, research and education.

### **A Leader in Health Program Development and Implementation**

- A trusted partner with a successful track record in grant-funded program administration.
- Implementing progressive, collaborative programs with health centers and other safety net partners, resulting in improved access to care, quality health outcomes and operational efficiencies.

### Targeting the Right Patient Population

- A large safety-net population consisting of 768,000+ patients in 3 counties: San Diego, Riverside and Imperial.
- An extremely ethnically diverse patient base with which to implement programs and conduct research.

### Developing the Research and Program Agenda for the 21st Century

- We will work with you to ensure we are addressing the issues of the day.
- Unique ability to develop and participate in key research initiatives.
- Brings critical health center members and safety-net providers key resources to implement life-giving programs.

### Superior Program Management Capabilities

- Largest California-based consortia team of experienced and talented professionals.
- HQP allows funders to work with numerous health centers and other safety-net providers in a single contract, leveraging economies of scale.
- Strong auditing capabilities so you can feel confident funds are being spent the right way.

### Innovative, Diverse Initiatives

- Behavioral health integration both intra-clinic and cross-system.
- Medical and Dental integration.
- Administration of funding for diagnostic and treatment services for uninsured individuals (breast health screening and diagnostic services, behavioral health and oral health).
- Outreach, education, and enrollment for expanded Medi-Cal and Covered California.
- Clinical Quality Initiatives (e.g. diabetes, hypertension).
- Data aggregation and analysis to support population health management.
