

Borrego Health

Committed to provide access to quality health care!

Borrego Health's mission is to provide high quality, efficient customer focused health care to the communities we serve, accomplished by providing access to patient centered comprehensive care to all residents, regardless of their ability to pay.

- Patient Centered approach
- Team based care
- Behavioral health integration
- Electronic Health Records
- Access to Patient portal
- Expanded access by Telemedicine services
- Mobile Medical and Dental Health.
- Access to specialty providers

Borrego Health is a non for profit, federally qualified health center that provides health care services to traditionally underserved and underinsured patients. In 2013, Borrego Health provided services for 62,035 patients and had 231,887 medical, dental and behavioral health visits. At Borrego Health, we tailor primary and preventive health programs to meet the health needs of men, women, children, adolescents and seniors in 18 different communities in a 150 mile corridor between San Diego and Riverside counties.
