Family PACT ^ ^	19,766	11%	39,165	6%	Other	\$3,699,472

Because of their philosophy and by necessity, CCHCs have been vigilant about controlling the cost of care, and the untoward effects of deferred or neglected care, by promoting a broad range of preventive health services specifically targeted to the particular needs of their communities and patient populations. The federal Office of Management and Budget has found the Health Center Program to be one of the ten most effective federal programs and the most effective program under the federal Health and Human Services Agency. Despite enormous challenges, CCHCs have persisted in their mission to serve their local communities.

All information compiled by Jeanita Harris, Sr. Data Analyst, CPCA. Numbers are based on 2014 OSHPD data.

^ ^ Patient counts for Episodic programs (BCCP, CHDP, Family PACT) are duplicated. BCCCP = Breast and Cervical Cancer Control Program; CHDP = Child Health and Disability Prevention Program; Family PACT = Family Planning Access Care and Treatment program.
^ ^ ^ County Indigent/CMSP/MISP, San Diego County Medical Plan, LA County Public/Private Partnership, and Other County Programs.
^ ^ ^ ^ Free and Self-Pay/ Sliding Fee Programs.
