

# Health Center Funding Cliff Impact Estimator

## What is the Health Center Funding Cliff?

Just over 70% of federal funding for the Health Centers program comes from the Health Centers Fund. In 2015, Congress extended this fund on a bipartisan basis for two years. **Without action before October 1, 2017, the fund is set to expire, meaning health centers will face an immediate 70% cut in funding.**

## Why the Cliff Matters

According to the federal government's own estimates, this potential 70% reduction in funding would result in the closure of **2,800 health center sites**, layoffs of more than **50,000 providers and staff**, and most importantly, a loss of access to primary and preventive care for **9 million patients** who often have no other place to turn. Cuts would affect every health center in the nation.

## What Would Be the Impact of the Cliff on My Health Center?

To see the estimated impact on your individual health center, fill in the blanks with blue headings to the right with your health center specific data on number of patients served, federal 330 grant revenue received, and overall revenue. This Health Center Funding Cliff Impact Estimator will estimate the amount of funding that your health center would lose and how many patients could lose access to care at your health center as a result.

## Estimating the Impact of the Cliff on CA Health Centers

### Today

Total Federal 330 Funding:

**\$473,520,195**

Total Overall Revenue:

**\$4,199,821,649**

Number of Patients Served:

**4,065,289**

### If the Cliff Were to Occur

Amount of Federal 330 Funding Lost:

**\$334,731,426**

Number of Patients Losing Access to Care:

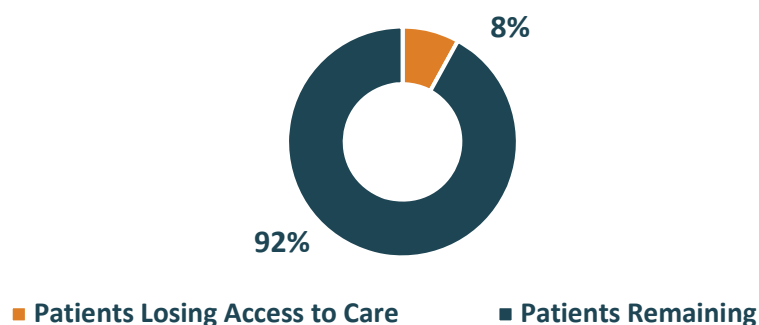

**324,009**

## The Funding Cliff Would Lead to Major Losses for CA Health Centers

## Percent of Patients Losing Access to Care

After 70% Reduction
