- “Low Income” refers to those who earn below 200% of federal poverty level guidelines.
- Full-Time Equivalent (FTE) of 1.0 is equivalent to one full-time employee. In an organization that has a 40-hour work week, an employee who works 20 hours per week (i.e., 50 percent of full time) is reported as “0.5 FTE.” FTE is also based on the number of months the employee works. An employee who works full time for four months out of the year would be reported as “0.33 FTE” (4 months/12 months).

## ACKNOWLEDGEMENTS

This report was created by Capital Link and funded by Health Center Partners of Southern California for its members.

Capital Link is a non-profit organization that has worked with hundreds of health centers and primary care associations for 25 years to plan for sustainability and growth, access capital, improve and optimize operations and financial management, and articulate value. We provide an extensive range of services, customized according to need, with the goal of strengthening health centers—financially and operationally—in a rapidly changing marketplace. Capital Link maintains a database of over 13,000 health center audited financial statements from 2005 to 2018, incorporating approximately 80% of all health centers nationally in any given year. This proprietary database is the only one of its kind as it exclusively contains health center information and enables us to provide information and insights tailored to the industry.
