

**HEALTH CENTER
PARTNERS**
of Southern California

Member Services

Health Center Partners (HCP) and its subsidiary, Health Quality Partners (HQP), support community health centers in caring for the safety net population by fostering collaboration through innovative programming + facilitating shared learning through a variety of professional peer groups + incubating programs and developing resources through collaborative grant writing + promoting strategic policies and advancement through advocacy + providing a wide array of exclusive services that are member-driven.

“HCP’s Shared Learning Network has developed into a resource of immeasurable value. The ability to share the breadth and depth of member expertise within peer groups, while moving timely information across the entire network, breaks down silos and leverages collaboration.”

Doug Flaker

Director of Resource Development
Health Quality Partners

About Health Center Partners

Health Center Partners of Southern California is a consortium of community health centers that serves its members as a network for innovation and a catalyst for transformation.

#VALUECHCS

Shared Learning Network

A robust shared learning network of facilitated peer groups for health center executive leadership and various professional staff through which members receive updates on current topics and issues, exchange information, participate in training, share best practices, and make recommendations in the development of health policy.

Training & Technical Assistance

Targeted training and technical assistance to increase competency in areas like compliance, quality improvement, contracting, revenue cycle, financial management, payment transformation systems, health information technology, population health management, emergency preparedness, program evaluation and resource development.

Continuing Education & Professional Development

Throughout the year, HCP organizes a series of learning and professional development opportunities through seminars, workshops, and webinars which provide continuing education and opportunities to learn from thought leaders.

Shared Savings Agreements and GPO Contracts

HCP, and its subsidiary, CNECT, negotiate shared saving agreements and group purchasing service contracts to save members money and improve supply chain efficiencies.

Collaborative Grant-Funded Syndicates

HCP and HQP prepare and submit applications for federal, state, county, and foundation funding opportunities that support member-syndicated activities like outreach, community wellness, health promotion, disease prevention, screening and assessment, substance use treatment, integrative primary care and mental health programs, combined with professional program evaluation.
